in the fortunes of Spain. If the power has been tuken away from her, it is because it was abused; if the scepter has been wrested from her grasp, it is because it was converted into a scourge. To no man is it permitted to do wrong with Impunity; least of all the rulers of the earth. The schishness of tyranny is punished by the weakness to which it leads, and Higory extinguishes in time the religious principle from which it is pawer to do mischiel is derived. In her present weakness spain is reaping the harvest of wrong doing. If her ships, colonies and commerce are gone, if ngrealt are and mannfactures are neglected, if she has no railroads, no active press, no generally diffined delucation, it is because her rulers have been tyrants, her untilsters of religion inon-heart d and marrow-minded bigots, and her nobles indown and profligate courtiers. In her deadhite state insulted humanity is avenged, and the retributive justice which has overtaken her speaks in a voice of waining to the oppressor, and of consolation to his victim.

And is there uo hope for Spain? Well the alght pass away and the morning dawn? To hazard even a conjectural answer to these questions requires far inore knowledge at the country than we possess. No iraveler has visited Spain without bringing away a strong sense alike of the virtues and the espaciales of her people.
